IMPORTANT NOTICE

This is a wholesale price list and for people who are engaged in nursery and floral trade only.

Terms of Sale

Conditions

We accept all orders on condition that they shall be void should injury beyond our control befall the stock. All quotations are subject to prior sale of stock. Prices listed cancel all previous quotations.

Prices

Five and fifty of one variety and size at the 10 and 100 rate respectively. We cannot accept orders for less than five of any one variety, or size of lining-out stock.

Cash & Carry

On carload or truckload orders where crating is not necessary and full payment is made before delivery, we offer a 20% discount on all B&B and canned plants including grafted Camellias, and Azaleas, except Azalea liners. This discount does not apply to any bare-root or potted stock.

Payments

Cash with order. C.O.D. shipments will be made only when a twenty-five per cent deposit accompanies order.

Booking Orders

Booked orders will not necessarily be binding on us unless buyer either takes delivery or confirms order with a deposit of 25% on or before January 1st.

Claims

All claims must be made immediately upon receipt of stock. We shall be glad to adjust any mistake made by us, but in no case will our liability exceed the purchase price.

Transportation

All prices F.O.B. Mobile. We make no charge for delivery to carrier, but our liability ceases when goods are turned over to carrier, and risks and costs of transportation belong to purchaser.

We are open for business from 7 A. M. to 4 P. M. on week days, Saturdays till noon, and no business on Sundays. You are cordially invited to visit us during our business hours.

Broad-Leaved Evergreens

Abbreviations:

S, Seedlings; CT, Cuttings Transplanted; BR, Bare-rooted.

Abelia Edward Goucher

Comparatively new Abelia, similar to the well-known Abelia Grandiflora, with larger and darker pink flowers. Good, compact spreading habit of growth.

Abelia Grandiflora

Very popular plant for hedge or mass planting, with glossy leaves and pinkish white trumpet shaped flowers borne in profusion during the summer.

	Each	10	100
6- 8" C. T. _____	---	\$1.50	\$10.00
8-12" C. T. _____	---	1.75	12.50
12-18" C. T. _____	---	2.25	17.50

Aucuba Japonica Var.

Compact, rather slow growing evergreen with large shiny leaves, variegated with golden flecks and splashes.

Seedlings, 4 to 5 Leaves _____	---	2.50	20.00
--------------------------------	-----	------	-------

Buxus Harlandi

Dark green, narrow leaved, compact, slow grower but faster than Buxus Sempervirens, and will stand hot summers of the Gulf Coast, but is also very hardy. By far the best Boxwood for the South.

4-6" C. T. _____	---	1.25	8.50
6-8" C. T. _____	---	1.50	10.00
Gallon Cans _____	.60		

Callistemon Rigidus (Bottlebrush)

Compact bush with narrow, stiff leaves. Bright red bottle brush shaped flowers in spring and summer.

2 1/4" pots _____	---	2.00	15.00
Gallon Cans _____	.60		

Cleyera Japonica

A fine evergreen shrub of wide adaptabilities. Has rather thick, glossy leaves which are brownish red when young, turning dark green at maturity. A tall upright grower, but compact, with creamy white fragrant flowers.

	Each	10	100
6- 8" C. T.	---	\$1.75	\$12.50
8-12" C. T.	---	2.25	17.50

Euonymus Patens

One of the most popular broadleaved Evergreens. Low shrub with good foliage and clusters of red berries in the winter.

6- 8" C. T.	---	1.50	10.00
8-12" C. T.	---	1.75	12.50
12-18" C. T.	---	2.00	15.00

Eurya Japonica

Low growing evergreen, having elongated narrow leaves with well-defined midrib of bright green. Small greenish-white flowers followed by black fruits. Stands shade well.

6- 8" C. T.	---	1.75	12.50
8-12" C. T.	---	2.00	15.00
12-18" C. T.	---	2.25	17.50

Gardenia Mystery

Well-known Cape Jasmine, with much larger and more attractive flowers than the old type.

6- 8" C. T.	---	1.25	8.50
8-12" C. T.	---	1.50	10.00
12-18" C. T.	---	1.75	12.50
Gallon Cans60		

Gardenia Radicans

Dwarf growing, small leaved, almost creeping Cape Jasmine, with small, very fragrant flowers.

Gardenia Stricta Nana

A little taller grower than the Gardenia Radicans, and has larger flowers. This Gardenia is very hardy, withstanding severe winter of Dallas, Texas, section without protection. Excellent variety, but supply is limited.

Prices of above two Gardenias:

6- 8" C. T.	---	1.25	8.50
8-12" C. T.	---	1.50	10.00
Quart Cans30		
Gallon Cans60		

Hydrangea Hortensia

French Hydrangea with huge spikes of blue or pink flowers, depending upon soil conditions, in early summer. They do best in partially shady locations with plenty of moisture.

	Each	10	100
Gallon Cans60		

Ilex Cassine Angustifolia

Medium size shrub with narrow long leaves. Even young plants will bear red berries profusely. Liners and gallon cans.

Ilex Crenata Convexa (Bullata)

Slow, but compact grower with glossy convex leaves. Very desirable for hedge or low foundation plantings, and very hardy. Liners and gallon cans.

Ilex Crenata Microphylla

Similar to the Convexa, with less convexed leaves which are more glossy. A very compact grower. The best type small-leaf Ilex. Liners and quart cans.

Ilex Vomitoria Femina (Berry-Bearing Yaupon)

Compact, twiggy shrub with small oblong leaves and bright red berries in profusion. Seedlings will not all bear, but these are cuttings grown from female plants. Can be sheared in any form. Liners only.

Prices of above four Ilex:

6- 8" C. T.	---	\$1.75	\$12.50
8-10" C. T.	---	2.00	15.00
10-15" C. T.	---	2.25	17.50
Quart Cans30		
Gallon Cans60		

Ilex Cornuta Burford (Chinese Holly)

Very attractive Holly much in demand. Highly glossy, dark green leaves, usually with only one spine at the tip of the leaves. The large red berries make this Holly very showy.

6- 8" C. T.	---	1.75	12.50
8-12" C. T.	---	2.25	17.50
12-18" C. T.	---	2.50	20.00
2¼" pots, 6- 8"	---	2.25	17.50
2¼" pots, 8-12"	---	2.50	20.00
2¼" pots, 2 year	---	3.00	25.00
Gallon Cans60		

Ilex Opaca Femina (Berry-Bearing American Holly)

This is an outstanding variety of American Holly, which, as far as we have been able to determine, has never been offered to the trade as a named variety. We consider it a very desirable variety. All of our cuttings were taken from heavy berry-bearing trees.

	Each	10	100
6- 8" C. T.	---	\$1.75	\$12.50
8-12" C. T.	---	2.25	17.50
12-18" C. T.	---	2.50	20.00
2¼" pots, 8-12"	---	2.50	20.00
Gallon Cans60		

Ilex Crenata Rotundifolia

Roundish, dark green leaves of compact growth, similar to Boxwood. Will make excellent plant for medium size hedge or foundation planting.

Well-rooted cuttings	---	.75	5.00
6- 8" C. T.	---	1.50	10.00
8-10" C. T.	---	1.75	12.50
10-15" C. T.	---	2.00	15.00
Quart Cans30		
Gallon Cans60		

Ligustrum Lucidum Compactum (Wax Privet)

Compact, fast growing shrub with glossy dark green leaves, thriving under adverse conditions. One of the most useful evergreens.

Well-rooted cuttings	---		3.00
6- 8" C. T.	---	1.25	8.50
8-12" C. T.	---	1.50	10.00
12-18" C. T.	---	2.00	15.00
Gallon Cans60		

Loquat (Eriobotrya Japonica)

Hardy, medium sized evergreen tree, with large leaves which are coated with thick tiny gray hairs underneath. Clusters of fragrant white flowers followed by delicious yellow fruit of about plum size.

8-12" S.	---	1.75	12.50
12-18" S.	---	2.00	15.00
18-24" S.	---	2.25	17.50
Gallon Cans60		

Magnolia Fuscata

Well-known Banana Shrub of old southern gardens. Rather difficult to transplant, and we advise partial defoliation and cutting back at the time of transplanting.

	Each	10	100
6- 8" C. T.	---	\$1.50	\$10.00
8-10" C. T.	---	1.75	12.50
10-15" C. T.	---	2.25	17.50
Gallon Cans60		

Magnolia Grandiflora (Bull Bay)

This is generally considered the South's finest evergreen tree.

Gallon Cans60
-------------------	-----

Oriental Magnolias

Most of the Oriental Magnolias are hardy in nearly all parts of the country, and are much in demand. These deciduous Magnolias are magnificent when in full bloom in the spring.

M. ALEXANDRINA. A hybrid that is more vigorous growing than Soulangeana, with larger flowers, and a little later blooming. Flowers are dark purplish pink on the outside, and white on the inside of the petals. All sizes available.

M. RUSTICA RUBRA. Large dark reddish purple flowers are cup shaped, and bloom a little later than Soulangeana. Fast, tall, and spreading grower. 2¼" pots only.

M. SOULANGEANA. This is the most popular of all the Oriental Magnolias. Small tree, literally covered with large, very showy flowers of pinkish color, before leaves appear in early spring. All sizes available.

M. NIGRA. More shrubby form of Magnolia, with rich, dark purple blooms. This variety has been increasing in popularity for several years now, to such an extent that we can hardly supply the demand. 2¼" pots only.

M. STELLATA. Beautiful pinkish white flowers are produced in great profusion. Dwarf grower, and very hardy even in Boston, Mass. 2¼" pots, and 8-12" C.T.

Prices of above five Magnolias:

	Each	10	100
2¼" pots	---	\$3.00	\$25.00
8-12" C. T.	---	3.00	25.00
12-18", 2 yr. C. T.	---	4.00	35.00
18-24" 2 yr. C. T.	---	4.50	40.00
2-3', 2 yr. C. T.	---	5.00	45.00

M. LILIFLORA. This variety forms a very compact bush, with many stems from the ground. Six petalled, lily shaped, purplish flowers.

	Each	10	100
2¼" pots	---	\$2.50	\$20.00
12-18", 2 yr. C. T.	---	3.50	30.00
18-24", 2 yr. C. T.	---	4.00	35.00
2-3', 2 yr. C. T.	---	4.50	40.00

Mahonia Bealei

Very broad compound leaves spread out Nandina-fashion. Clusters of yellow flowers in winter, followed by dark purplish berries. An excellent plant in a partially shaded place.

Gallon Cans75
-------------------	-----

Osmanthus Delavayi

A comparatively new addition to the Osmanthus family, with small attractive foliage, and richly fragrant white flowers in the spring. Has graceful, arching branches. 2¼" pots and 6-8" C. T.

Osmanthus Fortunei

Medium size, compact grower with dark green saw-tooth edged leaves. Small creamy, fragrant flowers in the fall. Hardy in Tennessee. Available in sizes 6-8" and 8-12" only.

Osmanthus Fragrans (Sweet Olive)

Compact medium size shrub with holly-like leaves. Clusters of small, creamy flowers are very fragrant. All sizes.

Prices of above three Osmanthus:

6- 8" C. T.	---	1.75	12.50
8-12" C. T.	---	2.00	15.00
2¼" pots, 8-12"	---	2.25	17.50
Quart Cans30		
Gallon Cans60		

Photinia Glabra

New growth is vivid red. Frequent pruning keeps this plant almost constantly in high color during the growing season. Propagated from highly colored plants, by cuttings.

6- 8" C. T.	---	1.50	10.00
8-12" C. T.	---	1.75	12.50
12-18" C. T.	---	2.00	15.00
Gallon Cans60		

Photinia Serrulata

Shrub up to 20 feet. Serrulated leaves, dark green and shining above, yellowish green beneath. Stands fairly well in Washington, D. C.

4-6" S.	---	1.50	10.00
6-8" S.	---	1.75	12.50
Quart Cans30		

Pittosporum Tobira

Will do well in shade or sun; in clay or sand. Very useful for foundation plantings.

Pittosporum Tobira Variegata

Pretty, variegated-leaved small plants are used extensively for dish gardens. Will do well under widely varying conditions as to shade and soil.

Prices of above two Pittosporum:

	Each	10	100
4- 6" C. T.	---	\$1.25	\$ 7.50
6- 8" C. T.	---	1.50	10.00
8-12" C. T.	---	1.75	12.50

Pyracantha Crenato-Serrata Graber

(Graber's Firethorn)

Outstandingly new, good Pyracantha, with huge clusters of scarlet berries, around Christmas time.

Pyracantha Coccinea Lalandi

Upright grower with orange colored berries. Hardy in sections of New Jersey.

Prices of above two Pyracantha:

6- 8" C. T.	---	1.50	10.00
8-12" C. T.	---	1.75	12.50
12-18" C. T.	---	2.00	15.00
2 $\frac{1}{4}$ " pots, 8-12"	---	2.25	17.50
Gallon Cans, Staked and Berried (Graber Only)75		

Rosa Rouletti

Miniature rose, with small rose-pink flowers profusely and continuously all growing season. Excellent for rock gardens or small pot planting. Our potted plants are well set with buds.

2 $\frac{1}{4}$ " pots	---	2.25	17.50
------------------------------	-----	------	-------

Viburnum Odoratissimum

Fast growing, large shrub with roundish light green leaves. Excellent screen plants.

8-12" C. T.	---	1.50	10.00
12-18" C. T.	---	2.00	15.00
Gallon Cans60		

Conifers

Juniperus Excelsa Stricta (Spiny Greek Juniper)

Conical, symmetrical and compact, dark green. Excellent for formal plantings.

	Each	10	100
4- 6" C. T. _____	---	\$1.50	\$10.00
6- 8" C. T. _____	---	1.75	12.50

Juniperus Chinensis Foemina (Sylvestris Juniper)

Pyramidal shaped plant with light green foliage. One of the best Junipers in the lower South, but can stand cold of far North.

4- 6" C. T. _____	---	1.50	10.00
6- 8" C. T. _____	---	1.75	12.50
8-12" C. T. _____	---	2.25	17.50
2¼" pots _____	---	2.25	17.50

Juniperus Chinensis Pfitzeriana

This excellent plant is perfectly at home from the Gulf Coast to Canada; from the Atlantic Coast to the Pacific. We offer excellent cutting grown plants, both in pots and bed-grown.

4- 6" C. T. _____	---	1.75	12.50
6- 8" C. T. _____	---	2.00	15.00
8-12" C. T., 2 yrs. _____	---	2.50	20.00
2¼" pots _____	---	2.25	17.50
Gallon Cans _____	.60		

Juniperus Communis Kiyonoi

Very compact and columnar form of English Juniper (*Juniperus communis*) originated by Kiyono many years ago, and planted extensively in middle southern states with great success.

Jnniperus Glauca Hetzi

Similar to Pfitzer Juniper with more bluish color and faster grower. Excellent newer Juniper, doing well in as wide a territory as Pfitzer Juniper.

Juniperus Horizontalis Plumosa (Andorra Juniper)

Bluish green, plume-foliaged, spreading Juniper will turn into warm, purplish color, during the winter months.

Prices of above three kinds:

	Each	10	100
4-6" C. T. _____	---	\$1.50	\$10.00
6- 8" C. T. _____	---	2.00	15.00
8-12" C. T. _____	---	2.25	17.50

Podocarpus Sinensis

Our Podocarpus are all cutting grown from berry-bearing plants, and are the very attractive narrow leaved kind.

6- 8" C. T. _____	---	1.50	10.00
8-12" C. T. _____	---	2.00	15.00
2¼" pots _____	---	2.00	15.00
Quart Cans _____	.30		

Thuja Orientalis Aurea Nana (Berckmann's Golden Arborvitae)

Dwarf, compact Arborvitae with golden yellow foliage.

	Each	10	100
6- 8" C. T. _____	---	\$2.00	\$15.00
8-12" C. T. _____	---	2.25	17.50
Gallon Cans _____	.60

We allow a 20% "cash and carry" discount on all of the above, where the plants are picked up at our nursery by truck or car, uncrated.

Azaleas

Our lining-out size Azaleas, offered for early spring 1955 delivery, were all transplanted in cold frames in June, the first cutting back in August being followed by several shearings. We have no left-over two-year-old liners with "long legs," but these are all young thrifty stock. We have perfected winter protection methods, so that we can guarantee the delivery of first quality Azalea liners. Let us book your order early, because quality stock will be limited in supply.

Indica Varieties

Elegans

Clear pink, early. Fast, upright grower.

Fielder's White

Pure white of good size flowers at rather early part of season. Compact and profuse bloomer. One of the very best.

Fisher's Pink

Large, light pink flowers, mid-season bloomer. Compact grower.

Formosa

Big, purplish pink flowers of mid-season. Very fast grower with large dark leaves.

George L. Taber

Soft lavender-pink faintly streaked darker pink. Fast grower and hardy.

Indica Alba

Pure white flowers at mid-season. Upright grower when young. Very hardy, withstanding the winter of New Jersey.

Judge Solomon (Southern Charm)

Growing habits exactly like Formosa with flowers identical to those of Pride of Mobile.

Pride of Mobile

Watermelon red of good size in mid-season. Fast grower and profuse bloomer.

Salmon (Lawsal)

Salmon pink, mid-season, profuse bloomer. Very hardy.

Prices of Indica Azaleas:

	Each	10	100
6-8" from cold frames,			
Spring delivery _____		1.50	10.00
		\$90.00 per 1000	

Hardy Japanese Azaleas

This group of Azaleas can stand a great deal of cold weather, being hardier than Indicas or Kurumes, and they are recommended for planting as far north as New Jersey, but they will also do well on the Gulf Coast.

Kaempferi

Rose pink flowers of rather late season. Does well in lower South, but also hardy in New England States.

Macrantha, Double

Double flowering pink of Macrantha, doing well in lower South as well as in very cold climate.

Macrantha Orange

Orange red flowers of above variety. Very compact grower in appearance almost like Boxwood. These Macrantha can stand more hot sun and dry weather, as well as cold, than the Indica Azaleas.

6-8" liners from cold frames			
Spring delivery _____		\$1.50	\$10.00
		\$90.00 per 1000	

Kurume Azaleas

Christmas Cheer

Small, deep crimson, hose-in-hose flowers. Compact grower.

Coral Bells

Coral pink, hose-in-hose very profuse bloomer, is probably the most popular variety of all the Kurumes. Fine for forcing.

Hexe (Firefly)

Large, bright scarlet, hose-in-hose of compact growth.

Hexe de Saffalere

Large, hose-in-hose flower of crimson red. Very compact grower. Improved strain of Hexe.

Hiawatha

Late-blooming, comparatively new variety of great merit. Hose-in-hose carmine red blooms. Dwarf, compact grower.

Hino-Crimson

Similar to Hinodegiri with deeper crimson flowers which will not fade in sun, and said to be hardier than Hinodegiri. Slow, compact grower.

Hinodegiri

Deep red, single flowers of good size. Very hardy and well adapted for landscape planting in northern sections of the South, as well as in the Eastern states.

Pink Pearl

Large, beautiful pink hose-in-hose flowers, borne in large clusters.

Salmon Beauty

Good size, hose-in-hose, deep salmon color of outstanding beauty.

Snow

Pure white, hose-in-hose flowers, with dark green glossy foliage.

Prices of Kurume Azaleas:

	Each	10	100
4-6" liners from cold frames			
Spring delivery	---	\$1.50	\$10.00
		\$90.00 per 1000	

Budded Kurume Azaleas

We have the following four varieties in lath-grown plants, with buds.

CHRISTMAS CHEER (4-6" and 6-8")

HINO CRIMSON (4-6" and 6-8")

HINODEGIRI (All sizes listed below)

SNOW (4-6" and 6-8")

Prices of above:

	Each	10	100
2 year plants, twice			
transplanted, some buds ---\$.30	\$2.50	\$20.00

8-10", compact, budded70	6.50	60.00
3" pots, some buds30		
Gallon Cans, budded60		

Pericat Azaleas

Dawn

Very large crinkled petals of delicate pink, hose-in-hose. Earliest of Pericats to bloom. Roundish, large leaves.

Madam Pericat

Flowers are almost identical with Dawn, but bloom two or three weeks later.

Pink Pericat

Deeper pink of above variety, blooming about same time.

Sweetheart Supreme

Good size double of pink color. Half open buds are much like a sweetheart rose. Latest to bloom.

Twenty Grand

Medium size partly hose-in-hose flowers of deep pink. Upright grower.

Prices of Pericat Azaleas:

	10	100
4-6" liners from cold frames		
Spring delivery -----	\$1.50	\$10.00
	\$90.00 per 1000

Camellias and Sasanquas in Gallon Cans

We have beautiful stock this year of many varieties in gallon cans, both own-root and grafts. The own-root plants are two and three years old, and are from 18 inches and up in size, and as a whole are branched. Many have buds. We do not think we will have enough of these fine plants to meet the demand, so we urge you to place your orders early. We allow the usual 20% "cash and carry" discount on all Camellias and Sasanquas in gallon cans, where the stock is picked up at the nursery uncrated.

Grafted Camellias in Gallon Cans

Our one-year grafts in gallon cans are extremely nice, sturdy 12-18" plants. We have the following rare varieties in these:

Beauvoir	Paulette Goddard	
Ethel Davis	Pride of Gulfport	
Mary Bethea	Simeon	
		Each
Price of above varieties		\$3.00

Price of above varieties		2.00

Own-Root Camellias and Sasanquas

Abbreviations:

E., Early; M., Mid-season;
L., Late (time of blooming);
BR., Bare-rooted.

We offer Camellia and Sasanqua liners both in potted stock and in bed-grown plants. Our potted Camellias have a full season's growth or more, since potting, with top growth of 6 to 18 inches, and they are offered in two grades of 6-8" and 8-12", prices being only slightly higher than bare-rooted Camellias of these sizes. The potted Camellias are shipped in paper pots and can be sent at any time of the year.

Our bed-grown liners are excellent in quality and value, and these can be shipped as soon as they become dormant, which is usually early in November.

We are offering an exceptionally good value on two and three year liners of all the above Sasanquas. These plants are from 12 to 30 inches, branched, and are particularly suitable for putting into containers, or lining-out to your fields. By canning these this season, a large percentage of these will have buds the following season.

Description of Varieties

Adolphe Audusson Variegated (M)

Very large, deep red, semi-double, broad petals are often marbled with white. Vigorous, dark green leaves.

Alba Plena (E)

Full imbricated double, snow white, large flowers are still the best of this color and shape. Early, but continues to bloom over a long period. Very good.

Arajishi (E)

This is the earliest blooming of all the Camellias, starting into bloom here in August most years, and continuing to bloom profusely until January. Large peony type, deep crimson blooms, and deeply serrated leaves.

Beau Harp (M)

One of the newer rare varieties, much in demand. Very large, semi-double bright red flowers. Vigorous upright grower with large dark green leaves. This variety was awarded the Illges Medal of 1949.

Beauvoir (M)

Red, with purple cast, medium large, semi-double with fluted petals.

Bessie Morse Bellingrath—See Tokino Hagasane

Black Dragon (Kokuryo) (L)

Extremely dark red, heavy peony with flower resembling Mrs. Chas. Cobb in color, and Victor Emmanuel in formation.

Chandleri Elegans (E-M)

Very large beautifully variegated blooms vary from cherry red to deep rose pink and white, and also vary greatly in formation, some being thick peony form and others loose semi-double with golden stamens. Plants set buds while quite young and are prolific bloomers. While it is a very old variety, it is still one of the most spectacular and popular varieties.

Claudia Phelps (M)

This is a beautiful solid delicate pink sport of Duchess of Sutherland. Shades lighter toward edge of bloom.

Clower's White (M)

Pure white loose incomplete double, with high upright inner petals interspersed with stamens. Vigorous upright grower with heavy foliage.

C. M. Wilson (M)

Out of the hundreds of varieties of Camellias which have been introduced throughout the years, you will find that Chandleri Elegans continues to hold its place and stand out above all others, when you disregard newness or rareness of variety. C. M. Wilson is a flesh pink sport of Chandleri Elegans, retaining all the merits of the mother plant and rising to new heights of rareness by virtue of being an exquisite hue which is truly breath-taking. Silvery pink fades into blush and white towards the edges of the petals. The contrast of golden yellow anthers with delicate flesh pink petals and the formation are more of the highly prized rare tree peony flower than of the Camellia.

Daikagura Variegated (E)

Large, thick peony type, deep rose petals are blotched white. Starts to bloom from September and is one of the finest early varieties. Slow grower but profuse bloomer. Our strain has more white than Ward's Daikagura, often more than half white.

Daikagura Red (E)

Solid red form of above.

Debutante (Sara C. Hastie) (E)

Early blooming, full peony form, large size flowers are delicate shade of soft pink, suitable for corsage. Very fast growth with light green serrated leaves.

Donckelaari (Tea Garden Type) (M)

Very large, semi-double, red mottled with white. Very prominent stamens. Slow grower with small leaves.

Duchess of Sutherland (M)

Beautiful very large, semi-double white with curled inner petals. Occasional narrow pink stripes. Vigorous upright grower. Very good.

Ethel Davis (M-L)

Large clear pink, loose incomplete double with stamens intermixed. Blooms profusely over a long period.

Fanny Bollis (M-L)

Medium size, semi-double, twisted rose-red petals are blotched white. Dark green, large foliage makes this a very attractive specimen even when not in flower.

Frizzle White (M)

Semi-double pure white flower, with beautifully crinkled petals intermixed with yellow stamens.

Galilee (M)

Very large pink, semi-double to loose peony type.

General George Patton (M-L)

Medium size, rose-form double of bright pink. This is a pink sport of Purity.

Gigantea (Magnolia King) (M-L)

Very large peony form with large guard petals. Cherry red, marbled, bold white variegation. Vigorous upright grower.

Glen 40 (M-L)

Large, full, symmetrical double of vivid deep red. Very old variety but the best of this group. Slow but sturdy grower.

Governor Earl Warren

Very large, semi-double to loose peony form flowers of pleasing rose-pink.

Governor Mouton (M)

Large, irregular semi-double to peony form. Oriental red, mottled white. Spreading growth.

Hakurakuten (Refugee) (M)

Pure white, very large, semi-double to loose peony form of outstanding beauty. Probably finest white of this type.

Herme (M)

Large, semi-double to peony form variegated pink, red and white, usually with white margin. Because of loose formation of flowers, flower buds will withstand more cold than imbricated types, and this variety is more dependable in colder section of Camellia belt. Heavy bloomer even when young.

High Hat (E)

Beautiful, flesh pink, sport of Daikagura. Having all the good points of well-known Daikagura, in addition to the most pleasing pink shading of C. M. Wilson, this is one of the most desirable Camellias of present day.

Jarvis Red (M)

Medium size, semi-double, bright red flowers are not prize winners, but because of free-spreading growth, and habit of blooming young and profusely, this is a very desirable garden variety. This is one of the hardiest of all Camellias.

Joshua E. Youtz (White Daikagura) (E)

Famed white form of Daikagura heralded from California during the past few years, and entirely different from and far better than the variety "Shiro-Daikagura." Time of blooming is same as Daikagura, but larger and pure white flowers.

Kellingtonia (M-L)

Medium sized, peony form, red marbled with white and similar to small size Gigantea. Very profuse bloomer.

King Lear (M)

Cherry-red, marbled with white. This is the variegated form of the solid self red sport of Finlandia. Vigorous compact grower.

Kishu Tsukasa (Admiral Nimitz) (M-L)

Large, full double, imbricated flowers of clear pink, often mottled white. Both flowers and leaves are similar to Laurel Leaf.

Lady Jane Grey (Eugene Lizze) (M)

Large, informal double to loose peony form, red splashed and marbled white. Slow, compact grower.

Lady Van Sittart (M)

Medium size, semi-double, deep pink with wavy petals of elegant shape. Narrow, twisted leaves.

La Reine Variegated (Lady Mary Cromartie Var.)

Large, incomplete double to loose peony form of deep rose, variegated white.

Laurel Leaf (L)

Very large, full double, imbricated, light salmon-pink, usually with some white variegation. Narrow, glossy, attractive foliage. Excellent greenhouse variety for cut flowers.

Lindsay Neill (E)

Large semi-double to loose peony form of dark red color, sharply marbled with white, presenting a vivid contrast. Very good. Hardy.

Lotus (Sode-Gakushi) (M)

Semi-double, pure white. Extremely large. Formation like a lotus flower, with beautiful yellow stamens.

Magnoliaeflora (M)

Medium size, semi-double, delicate blush pink with characteristic upright, wavy petals giving an elegant appearance. Slow grower.

Margaret Jack (Finlandia Var.) (E-M)

Large white, semi-double to complete double, streaked and flecked with crimson. Compact, bushy grower.

Mary Bethea (M-L)

Red, shading to purple at edge, medium large, semi-double, slow, open grower.

Mary Charlotte (M)

Medium sized, delicate pink, flat peony form. A truly lovely bloom. Compact, vigorous grower.

Mathotiana (Purple Emperor; Purple Dawn; Mathotiana Rubra) (M-L)

Very large, rose-form, symmetrical double flowers are deep red. As the flowers get older a purple cast appears, especially toward the outer edges of the petals. Vigorous, compact grower and one of the most popular varieties.

Mathotiana Variant (C. M. Hovey) (M-L)

Variegated form of above with white blotches.

Morning Glow (E-M)

This is a fine formal double white, similar to Alba Plena, but more vigorous in growth. Upright, compact grower. Fine greenhouse variety, and also does well for outside plantings.

Mrs. Charles Cobb (E)

Large, peony form of very dark red. Vigorous and spreading.

Mrs. Freeman Weiss (M)

Large loose peony, rich pink, with occasional white variegation.

Paulette Goddard (M-L)

Very large, bright red, semi-double to loose peony form. New variety.

Pink Perfection (E-M)

Well known, medium size, formal double of clear shell pink. This most popular variety is in great demand year after year.

Pride of Descanso (M)

Large, semi-double, pure white. Vigorous, upright grower.

Pride of Gulfport (M-L)

One of the best of the newer varieties. Large semi-double to peony form, bright red. Profuse bloomer over long period, and vigorous grower.

Prince of Orange (M-L)

Semi-double to loose peony form, similar to Victor Emmanuel in formation. A very unusual orange red flower of good size.

Prince E. Napoleon (Pope Pius) (M)

Fairly large size imbricated double of deep red. Heavy bloomer.

Professor C. S. Sargent (E-M)

Double peony form of medium size, dark red. Fast grower.

Reverend John Bennett (M)

Large, semi-double, salmon pink of rare beauty. Fast, spreading grower.

Reverend John G. Drayton (Mary E. M.) (M-L)

Medium size, semi-double to loose peony form with plenty of yellow anthers. Silvery clear pink.

Rosea Superba Variegated

Regular imbricated double of enormous size, variegated rose pink and white. Very vigorous, upright growth.

Rose Dawn (E-M)

Medium to large imbricated double of rose-pink, starting to bloom early and continuing for a long time. Fast, compact and spreading grower.

Simeon (M)

Semi-double delicate rose-pink flowers, up to 6" in diameter. Rapid, upright and compact grower.

Snowdrift (M)

Medium large, pure white, semi-double of wavy petals with elegant shape.

Thelma Dale (M)

Large size, peony form of clear, delicate pink, with yellow stamens intermixed, present the most charming color and form. One of the very best of recent introductions.

Tinsley (M)

Large, semi-double blush color, of Empress shape. Very good.

Tokino Hagasane (Bessie Morse Bellingrath) (M)

Large semi-double to peony form of delicate blush color. Importation by Kiyono during recent years.

Victor Emmanuel (Blood of China) (L)

Unusually large, velvety red, thick peony form that is most spectacular. Compact, bushy grower.

Ville de Nantes (M)

Large, semi-double red beautifully variegated with white. With more irregular form of petals than Donckelaari. Slow grower.

Virgin's Blush (M)

Large semi-double to loose peony form of delicate blush color.

White Daikagura—See Joshua Youtz

White Empress (E)

Large, pure white semi-double flower, with mass of golden stamens in center. Fast, vigorous grower.

Woodville Red (Martin Roberts; Kollock) (M)

Very large, thick peony form of strawberry red color.

Yohei-Haku (September Morn; Albatross) (E)

Large, peony form to loose double. White petals are often tinted blush. Very early.

Camellia Sasanqua

Beni Kantsubaki (Shishi Gashira)

Irregular double, crimson flowers of good size, have more substance and lasting quality than most other Sasanquas. Growth and leaf characteristics are more like *C. Japonica*. This variety blooms late for Sasanquas, starting in November. A great new addition to colder belt of *Camellia* section, where *C. Japonicas* are not very dependable. Worthy of extensive planting.

Choji-Guruma

Numerous tiny incurved petaloids are surrounded by light pink guard petals, forming pompon. New growth is almost blackish brown.

Cleopatra

Semi-double rose-pink, peony type. Very compact grower. Extremely popular variety.

Dawn

Semi-double, wavy petals with flesh pink margin. Very hardy.

Day Dream

Quite large size single to semi-double white flowers with pink edges. The most outstanding merits of this variety are its foliage, growth habit and general shape. Leaves are large, thick and dark green. Very fast and strong upright grower, but form compact pyramidal shape, similar to upright Wax Privet (*Ligustrum lucidum pyramidalis*). An ideal plant for corner planting, or when variations are needed for back-ground planting.

Hino de Gumo

Large semi-double blush with deeper pink on edges. Beautiful form and shade and excellent grower.

Hiodoshi

Good size nine-petaled flowers are boldly variegated with white blotches on crimson and very showy. Slow, compact grower.

Hiryu (Variegata)

Crinkled and wavy petals are wine-red with white, and semi-double.

Little Gem

Dainty, semi-double blush flowers are small and the name is perfect in describing this charming flower. Slow grower.

Maiden Blush (Pink)

Clear single pink of fairly good size and form. Fast, but compact grower.

Mine-No-Yuki (Snow on the Mountain)

Well-known large size peony to loose double, pure white Sasanqua was imported by Kiyono some 40 years ago, and this is still in great demand. Probably the most popular of all the Sasanquas.

Ocean Springs (Flapper)

Single to semi-double. Petals pure white splotched red, dog-eared in the center, similar to Ville de Nantes in formation.

Oleifera

Very large white crinkled petals are edged in rose. Very fast grower.

Pink Snow

Pink form of the well-known Mine-no-yuki. Many petals and petaloids of clear light pink. One of the finest of the new Sasanqua introductions.

Usu-Beni (Usuiro Kantsubaki; Showa-No-Sakae)

Irregular double to semi-double, clear pink, with occasional white mottles. Large size flowers of better lasting quality than most Sasanquas. Compact, but good grower. Excellent new Sasanqua.
